AGORA: FAVOURITING PAGES

In this guide we will demonstrate how Favourite pages in order to bookmark them.

Favouriting a page works in the same way as bookmarking a page in a web browser and is a good way of creating quick access to the pages which you use the most frequently.

In the portal when you visit any page, you will see a star icon next to the title of the page at the top as circled. Simply click it so that it turns red and you have just Favourited a page.

When you open up Agora, you can go up to the top right to the star icon. You can click it and a list of your Favourited pages will pop up so you can quickly access them as shown below:
