INTRODUCTION

This booklet has been developed to assist students and parents in their understanding of the co-curricular program at CGGS and provides a brief outline of the clubs and activities available through the co-curricular program. Details may vary from time to time. It should be used as a guide when deciding in which activities students wish to participate.

Students are able to join these activities to pursue personal interests. All classes take place after school and run between 1 hour and 1.5 hours unless otherwise stated. Students should take with them a small snack to eat for afternoon tea.

At the conclusion of any co-curricular activity, each child must be collected at the scheduled finish time from the location of the activity and parent contact made with the Teacher-in-Charge. No student will be permitted to wait unattended to be picked up after the conclusion of the activity. Any student without a parent present at the end of a co-curricular activity will be escorted to the Front Office by the Teacher-in-Charge where contact with a parent will be attempted.

To cater for emergency situations, all students are required to be registered with After School Care. If the School is unable to make contact with a parent at the conclusion of a co-curricular activity, and there is a place available in After School Care, your child will attend After School Care until collected. A charge will only apply when the service is used. Please advise the Teacher-in-Charge if you have booked your child in to attend After School Care at the conclusion of a co-curricular activity.

Unless otherwise stated or advised, the activities run in Terms 1–3 from Weeks 3–9. It is not recommended that Prep students participate in any co-curricular activities in Term 1. Preference for places is given to students in Years 1 and 2.

NOMINATION PROCEDURE FOR CO-CURRICULAR CLUB/ACTIVITY

The Co-curricular activities are usually well subscribed.

Please click https://goo.gl/forms/L8GuM4p9O6McBAn2 to place your son/daughter on the list of interested students to participate in a co-curricular club / activity in Term 1 2019.
Chess, Chinese, Performance Dance & Performance Singing Lessons and Private Tennis Lessons are run by external members of staff. Details regarding enrolling for these classes can be found beneath each entry.

For subsequent terms a new link will be provided in a letter forwarded to parents. Please refer to the notes on the link to ensure the eligibility of your child and day of the activity.

Students in Junior Primary are to attend no more than one co-curricular Activity Club. Prep students are not allocated an activity during Term 1 so that they do not tire during the course of the year. Places are limited and students successful in being allocated to a Club will be notified during Week 1 of the relevant Term.
BOXING FOR FITNESS

INFORMATION
This co-curricular is a fun and structured way to learn authentic boxing skills. Incorporating fitness and technique these sessions will build strength, stamina and confidence. All sessions will involve individual and partner work and supervised by a coach with 10 years’ experience training and competing in amateur boxing. There will also be a core focus on the implementation of effective strategies in order to obtain and build mental strength to align with the technique and skill development of the program.

*Mouthguards are required
**Gloves will be provided.

**CHINESE (MANDARIN) LESSONS**

Given the nature of the co-curricular, it is expected that students commit to Chinese for the whole of the school year. Parents will be invoiced by Mr Lu at the beginning of each semester.

**INFORMATION**
The program aims to provide Mandarin studies, regardless of previous experience, knowledge or age. It will develop language awareness and listening, speaking, reading and writing in Mandarin.

**ELIGIBILITY**
Junior Primary and Primary students

**APPROXIMATE COST**
Approximately $200 per semester

**EINSTEIN CLUB**

**INFORMATION**
Engaging IN STEM To Explore and INnovate

The Einstein Club is designed for students to explore and develop skills in STEM (Science, Technology, Engineering and Maths) through a range of activities including Lego robotics, drones, coding, electronics, game creation, app and website designing.

**Code Club**
For coders of any level.
**EV3 Robotics for Beginners with Bricks4Kids**

This co-curricular is an introductory course to Robotics, facilitated by building and coding using LegoMindstorm EV3 kits.

Students will engage in building robots to meet a set criteria, using Lego bricks. Once built, students will then engage in developing code for their robots in order to complete set tasks, using LegoMindstorm EV3 drag and drop coding to ‘bring their robot to life’. Coding will require robots to respond to inputs from attached sensors.

Students intending to compete in RoboCup Junior must have participated in either Term 1 or Term 4 LegoMindstorms co-curricular.

**Make It!**

*_Make It!* dares students to think critically and creatively to develop innovative creations using STEM skills. Students will investigate the use of Micro:Bits, Arduinos, Makey-Makeys as well as a variety of other technological tools to respond to challenges that are designed to develop students understanding of how technology can be used to respond to human needs.

**Minecraft Club**

**INFORMATION**
It is well-known that Minecraft engages students and is something that many children are passionate about. Minecraft Education Club utilises that engagement and creates student-centred learning experiences that challenge their creativity and collaborative skills. Students will work individually and in teams to solve problems within a school-based Minecraft world.

RoboCup Junior 2019
This co-curricular is designed to prepare students for participation in ACT RoboCup Junior events. It is important to note that participation in this co-curricular requires commitment for both Term 2 and Term 3, as students will be committing to team entry in the ACT RoboCup Junior competition.
The co-curricular is open only to students who have previously completed an introductory lego robotics co-curricular eg LegoMindstorms and who have proven familiarity with building and coding using LegoMindstorm EV3 kits.

Students will engage in building robots according to RoboCup Junior competition requirements. It is anticipated that students who are enrolled are committing to participate to represent Canberra Girls Grammar School in RoboCup Junior competitions in Term 3.

Students intending to compete in RoboCup Junior co-curricular in Term 2 & 3 (2019), must have participated in either Term 1 (2019) or Term 4 (2018) LegoMindstorms co-curricular.

**Bricks 4 Kids**

CGGS is happy to continue its collaboration with BRICKS 4 KIDZ® ACT for our Mini Engineers, Junior Robotics and Advanced Robotics classes in 2019. This curriculum
will provide a single, graduated pathway for STEM (Science, Technology, Engineering and Mathematics) learning at CGGS.

Using LEGO® Bricks as the basis of our STEM enrichment programs, Year 1–2 students will develop a working understanding of key engineering principles at our Mini Engineers workshops.

Our Junior Robotics classes will introduce students to how coding can be applied to control and direct their own robot creations, using the WeDo® drag-and-drop icon based software.

In Advanced Robotics, our Year 4–6 students will then use the very latest LEGO® MINDSTORMS EV3 technology to plan, test and modify sequences of instructions from a variety of real life robotic behaviours. Students will incorporate the newest generation of motors, sensors and software by programming their commands directly into their own purpose built robots.

BRICKS 4 KIDZ® is Canberra’s number one provider of LEGO® events and programs, and is proud to partner with CGGS.
GRAMMAR GREEN THUMBS

INFORMATION Grammar Green Thumbs is a gardening club offering the students the opportunity to learn basic organic gardening practices in addition to the enjoyment of sampling their own school grown vegetables.

MINI ARTISTS

INFORMATION Mini Artists is offered to Junior Primary (Prep to Year 2) students. The students will have the opportunity to explore different elements of art with activities reflecting the interests of the group.

WHEN Wednesdays
**MINI TOMS**

**INFORMATION**

Mini ToMs is designed to promote a simulation of real, open-ended challenges in the areas of: Science Technology; Engineering Maths; Language Literature; and Social Sciences. Students are formed into small groups to work on the challenges set in one of the disciplines. The team members work together for a term – with minimal teacher assistance, to develop a creative way to communicate their solution to a problem posed.

The teams will also be given a few ‘spontaneous challenges’, which are designed to help students think on their feet!

The aim of Mini ToMs is to provide students with an opportunity:

- To develop creative problem-solving approaches and techniques;
- To foster cooperative learning and teamwork;
- To promote knowledge and appreciation of self and others;
- To encourage experimentation and risk-taking;
- To expand and reward creative and divergent thinking;
- To stimulate a spirit of inquiry and a love of learning;

PERFORMANCE DANCE — PERFORMANCE SINGING LESSONS

Introduction

Australian children’s theatre company, “Syon Performing Arts Pty Ltd”, owns and operates the ACTING ANTICS brand of Performing Arts programs and Holiday Theatre Camps. Acting Antics programs are now in their thirteenth-year at CGGS.

WHEN
Thursdays, 3.30pm – 4.30pm for Performance Dance
Thursdays, 4.30pm – 5.30pm for Performance Singing
Classes take place in the School Hall

FEES
Season 1 (Terms 1 & 2): $324.00 per program (18 sessions)
Season 2 (Terms 3 & 4): $354.00 per program (18 sessions) plus costume hire.
Fee payment options include Credit Card or Direct Credit

REGISTRATIONS
Register online at http://ctcau.actingantics.com

ENQUIRIES
Deborah Percy – admin@actingantics.com

Performance Dance

Information

Performance Dance is designed for students that love to dance and perform but don’t want the stress and rigors of doing dance exams. Syllabus consists of warmup exercises that teach safe body use and positive body awareness, technical dance components that incorporate elements of Broadway Jazz dance, and choreographed routines that improve coordination, flexibility, rhythm and musicality. Creativity, personal expression and fun are key components to these classes. Students perform themed presentations for parents and families at the end of each season (Term 2 and Term 4) for parents and families at Canberra Girls Grammar School.

WHEN
Thursdays, 3.30pm – 4.30pm (commences 14 February)

FEES
Season 1 (Term 1 and 2): $324.00 (18 sessions)

ELIGIBILITY
Year 2 – Year 5
Performance Singing

Information

Performance Singing classes are designed for students who love to sing and perform but do not necessarily wish to have individual singing lessons. Repertoire is chosen from Disney films, musical theatre & popular songs with an emphasis on songs that are appropriate to the age and performance level of the class. Weekly focuses include pitch, tone, timing, breathing, diction, expression & phrasing, along with exploring the text and performance aspects of each song. Creativity, personal expression and fun are key components to these classes. Students will perform themed presentations at the end of each season (Term 2 and Term 4) for parents and families at Canberra Girls Grammar School.

**WHEN**
Thursdays, 4.30pm – 5.30pm (commences 14 February)

**FEES**
Season 1 (Term 1 and 2) $324.00 (18 sessions)

**PLEASE NOTE**
Children not commencing co-curricular activities until 4:30pm must be either picked up for the hour after school finishes or sent to After School Care.
**TED TALK CLUB**

The acronym TED stands for Technology, Entertainment and Design. TED is a non-profit organisation which describes its mission as ‘Ideas worth spreading.’ Students will be provided with opportunities to construct a TED talk, choosing from a broad range of topics such as Science through to global issues. The Co-curricular club will cater for curious individuals who seek to discover new ideas and positively impact the CGGS school community. Throughout each week, the students will be guided in choosing a theme, broad and overarching enough to leave room for a wide range and diversity of topics.

Students will be encouraged to:

**Think local**: What new ideas are being discussed and created in your community?

**Think global**: Think about how you can reflect your community outward to the world. What could the rest of the world learn from your community. Alternatively, what could your community learn about the world that they don’t already know?

Support and conferencing will take place each week as the students plan, draft and edit their TED talk which will be presented at selected Primary school assemblies.
