LEARN

Girls Who Lead acknowledges the potential of our senior primary students to make a positive impact on the world. This year-long program is designed to empower our girls with the necessary leadership and entrepreneurial skills to develop their potential and contribute to their home, school and local communities; the first stepping stone to serve, influence and lead in the wider world. Girls Who Lead is embedded into our daily curriculum, which is planned with an inquiry focus at its core.

ENGAGE

Girls Who Lead ensures that all students are empowered through their participation in a series of learning engagements that will focus on consolidating:

- the skills and attitudes necessary to actively participate in high level collaboration, cooperation and consultation
- the ability to work individually and in a team situation to solve real life problems, make decisions and put plans into action
- the confidence needed to tackle situations and apply a growth mindset to challenges
- the knowledge and skills required to persuade and motivate others, including the ability to speak publically and debate

ACT

Girls Who Lead will require our girls to work actively with their peers, family and the wider community with confidence, positivity and empathy. All students, through their participation, will learn to recognise that they can be a catalyst for positive change through their participation in learning experiences designed to empower and inculcate independence and a growth mindset. We believe that it is important for our girls, as they transition to young adulthood, to know that their voices are heard and their positive and reasoned choices supported.

DEVELOP

Girls Who Lead will equip our girls to succeed by recognising and developing their talents and abilities. Our Female change-makers will be motivated to solve problems using innovative STEM skills and rigorous inquiry techniques. Over the course of the year they will become role models for our younger students as they demonstrate their abilities across the curriculum with confidence, open-mindedness and the determination to succeed. We believe that by empowering our girls to lead we are empowering society.

“When it comes to solving many of the problems of the world, I believe in girl power”.

KOFI ANNAN, 2004

So does CGGS!
